INTRODUCTION

The MFMA Circulars No.72 and No.74 indicated that all municipalities must formulate service level standards which must form part of the MTREF budget documentation.

Services standards indicate to what standard a particular service is delivered. Thus service standards can measure or evaluate the performance of local governments in terms of service delivery. Service standards are developed and measured against:

- Quantity; Quality; Time/Timeliness; Value for money; Access; Equity and Flexibility

A good starting point for communicating with citizens is to identify what they want and need to know, and then decide how to respond.

The Blue Crane Route Municipality always try to ensure that it executes and refines its strategies of enhancing engagement and improving dialogue with its customers. We hold the firm belief that the municipality will incessantly strengthen its partnership and relations with its customers in its quest to fast-track service delivery.

The Final 2020/2021 Service Level Standards of the municipality is a separate document that accompanies the Final 2020/2021 MTREF Budget document.

The following schedule reflects the history of the service delivery standards of the Blue Crane Route Municipality:
